OSSO CLEANING

FREE PLANNING WORKSHEET

Fill in digitally or print and write.

Carpet cleaning preparation checklist

Use this checklist to plan the areas, access and drying arrangements for a carpet steam clean.

Before asking for a quote

- [ ] List the carpeted rooms, hallways and stairs you want cleaned.
- [ ] Describe stains or odours, and tell the cleaner what has already been applied.
- [ ] Explain whether rooms are furnished and discuss which items will be moved.
- [ ] Check equipment access, parking, stairs and any building or lift booking.

Before the visit

- [ ] Clear loose items from the carpet and keep valuables out of the work area.
- [ ] Agree furniture arrangements in advance; do not assume heavy items will be moved.
- [ ] Arrange a separate area for children and pets while cleaning is underway.

After cleaning

- [ ] Keep air moving when conditions allow, following the cleaner's advice.
- [ ] Limit traffic until the carpet is dry; take care at adjoining hard floors.
- [ ] Return furniture when the carpet is dry or follow the agreed protection advice.

My plan

Rooms / halls / stairs

Access arrangements

Timing / drying arrangements

Drying depends on the fibre, condition, weather and airflow. Share any deadline before booking; a fixed drying time is not guaranteed.
